Skills

Programming Languages

Proficient in Python and Java for developing software and applications.

Econometrics

Strong understanding of econometric models and their application in analyzing economic data.

Teamwork and Leadership

Developed leadership and teamwork skills through academic group projects and employment, such as in Starbucks and St Pierre's Sushi, where I collaborated closely with colleagues in fast-paced environments.

Artificial Intelligence Literacy

Familiar with AI concepts and how they can be applied in various industries, especially in data analysis and problem-solving contexts.

Multitasking and Time Management

Experienced in balancing multiple tasks efficiently, as demonstrated in part-time roles while managing academic responsibilities.

Languages

Native in English and Portuguese, proficient in Indonesian and Tetum.
